### Resource title

Introduction to Action Research e-CPD module

### Author/s

CETTa Academy (previously known as emCETT)

### Description

A comprehensive e-CPD module developed as part of the Foundation's 'Practitioner-Led Action Research' programme (2013 - 2015) to provide an introduction to action research.

It is designed to be dipped in and out depending on practitioners' starting points. The module can be used in many ways e.g. as an individual or working through the sections during team meetings. The module consists of eleven sections exploring topics such as the purpose of action research, different models of action research, methodology and an action plan checklist. Also accessible from within the e-CPD module are a range of templates i.e. example ethics and consent forms, action plan and self-assessment wheel.
